

Social & Environmental Performance Overview

Va-Co Plast s.a.s. di Scarso Valter & Co.

Overall Score

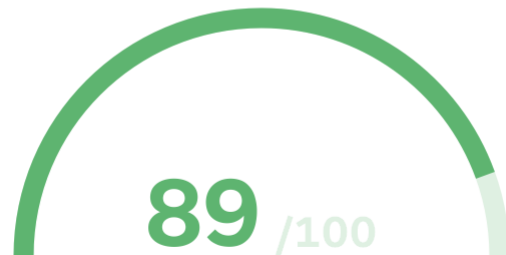

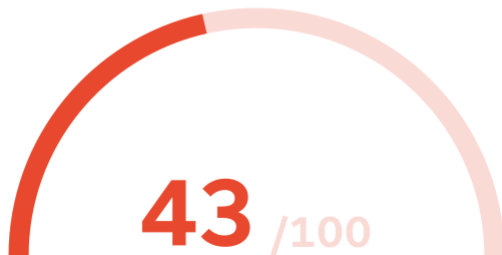

This score represents the overall verified performance of the company across the Social & Environmental assessment.

Score Breakdown by Assessment Area:

1: Social Impact Assessment

2: Environmental Assessment

Performance Overview

- For Social Performance, Va-Co Plast s.a.s. di Scarso Valter & Co. social compliance performance shows a commitment to ethics through its Code of Conduct and ISO standards. However, an informal social performance team and gaps in risk assessment and grievance mechanisms highlight areas for improvement. Formalizing processes, enhancing training, and engaging external stakeholders can strengthen compliance and mitigate supply chain risks.
- For Environmental Performance, Va-Co Plast s.a.s. di Scarso Valter & Co. does not require environmental permits from suppliers but is aware of their certifications, with most holding ISO 14001. While fewer suppliers have recycling programs, the company itself recycles per local regulations and tracks paper usage with a goal to reduce it. They use renewable energy sources like wind and solar, monitor GHG emissions, water usage, and noise pollution with reduction targets, and track air discharge levels. They do not produce industrial wastewater or hazardous waste, reflecting a structured but moderate approach to environmental oversight.
